**Best Practice**

**Portal of Welfare and Management of Migrant Labour**

## **Portal of Welfare and Management of Migrant Labour**

### **Introduction**

The Government of India started the most comprehensive exercise to map migrant workers scattered across the country - in relief camps, at their employers' premises, or in clusters where they are presently residing due to lockdown to contain the Corona Virus (COVID-19). The Union Home Ministry and Ministry of Labour had asked the state governments to prepare a comprehensive data of all the migrant workers by 11<sup>th</sup> April, 2020. The data was to be collected from three sources primarily: relief camps / shelter homes, employers whose labour is in-situ at work places and from localities where migrant workers generally reside in addition to relief camps operated by non-government organizations and private companies as well.

### **Haryana State Initiatives**

The Government of Haryana anticipated the problems of migrant labourers due to COVID-19 within the state, particularly in Gurugram, Faridabad, Palwal, Sonapat, Panipat, Rohtak, Jhajjar, Yamuna Nagar, Panchkula and Ambala. The administration in all the districts were directed to assess the number of migrant labourers and establish sufficient shelter homes at different locations of the city/ town with optimum capacity of beds, food arrangements and other facilities according to the parameters set by the government of India.

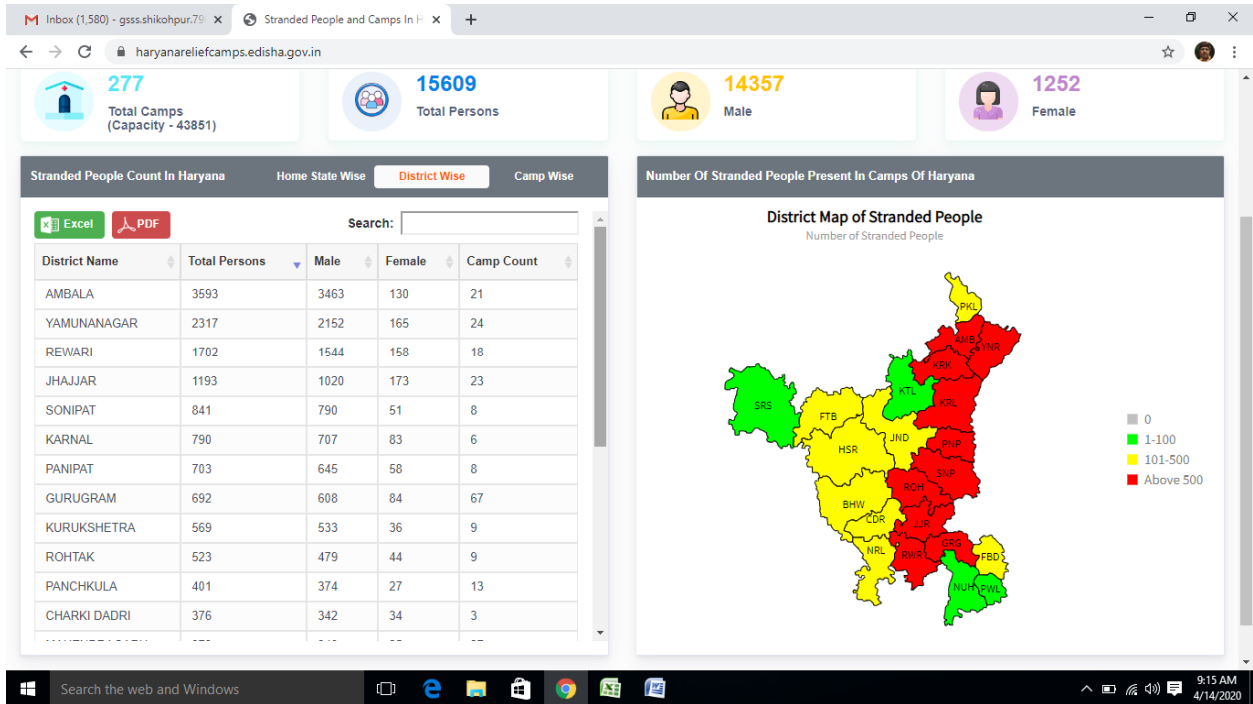

### ***Web Portal "Search for Stranded People"***

Notwithstanding this, a web portal ***Search for Stranded People***, a relief management system for welfare and management of migrant labourers was made by HARTRON under the leadership of a senior IAS, Shri Vijayendra Kumar, to get relevant data to monitor and supervise the management against COVID-19 from local to state level. The portal is used for capturing, displaying and analyzing the migrant labourers data living in shelters across various districts of the state. The portal has following salient features :

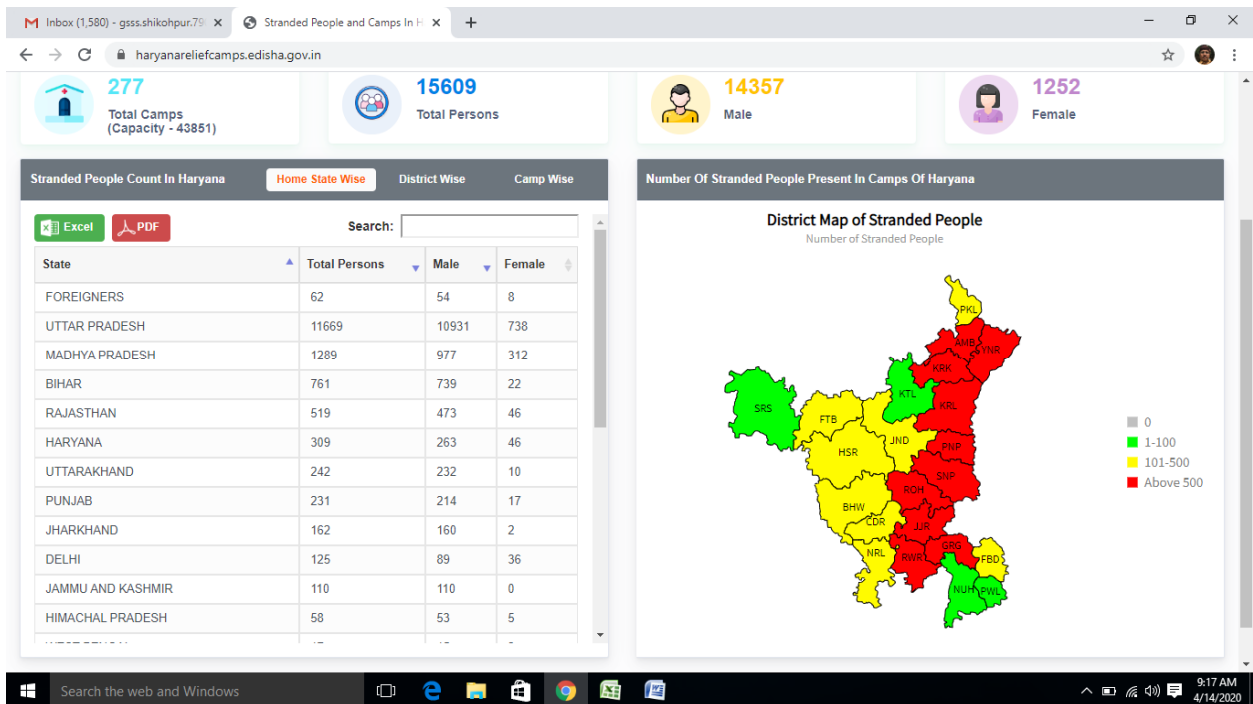

- a) Contains origin domicile state-wise data of migrant labourers from cities both in and outside Haryana.
- b) District-wise data of migrant labourers in the state.
- c) Camp-wise data of migrant living in various shelters in different districts.
- d) Total number of camps in Haryana with capacity and persons residing in each shelter.
- e) Data of male and female migrants in shelters in different districts who are stranded in Haryana due to lockdown.
- f) Map of Haryana displaying the standard data of people living in shelters with color coding of different districts based on number of migrants.
- g) It uses Red, Yellow and Green colour coding for areas with more than 500 people, 101-500 people and 1-100 people respectively, in migrant camps in different districts.

# Outcome

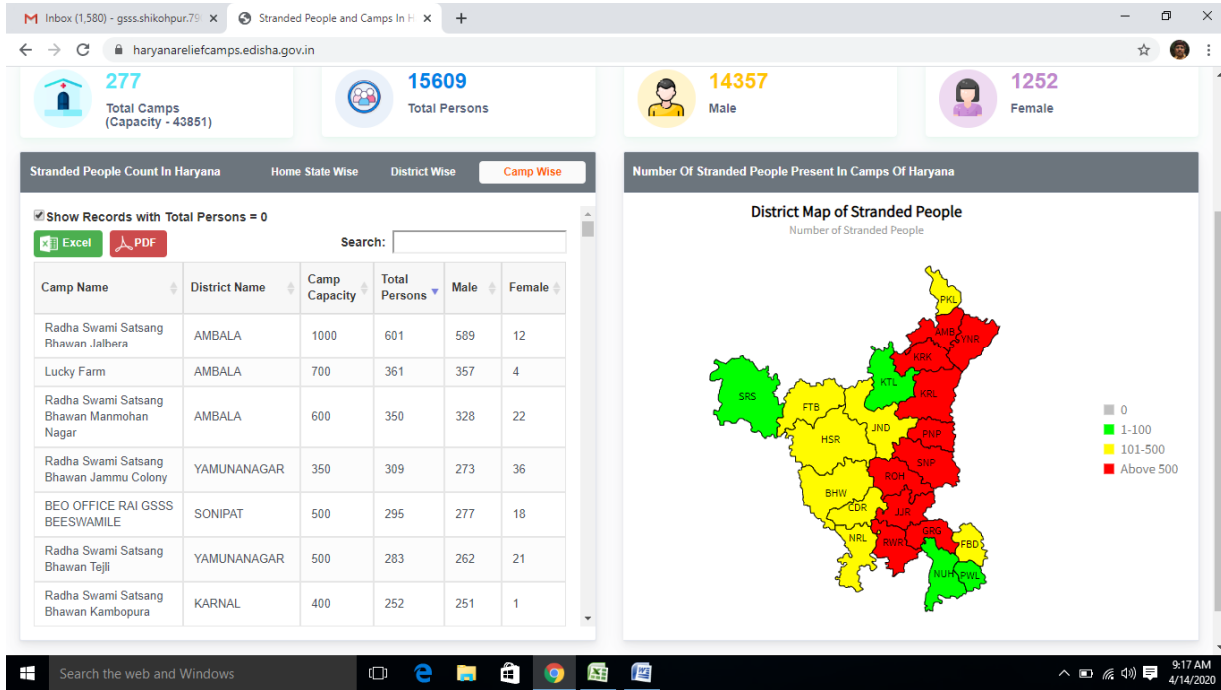

## I. District-wise Migrant Labor View

## II. Migrant Home State View

### III. Migrant Shelter Camp-wise View

### IV. Migrant Raw Data Captured on Portal

District Name	Tehsil Name	Relief Camp Name	Run By	Registration No	Applicant Detail	Gender	Corona Status	Working Detail	Migration Reason	Home District	Home State	Home Address	Working Address

#### ***D. Outcome***

- I. This portal contains the sheet which defines category of migrants both district and tehsil wise.
- II. The data also displays whether the relief-camps are organized by NGOs or the Government.
- III. This portal contains the registration numbers of the migrants and other details, like gender and whether the test has been conducted by the authorities.
- IV. The portal also records the category of migrant employees, i.e. Unorganized sector employee, Business employee or Self- employed.
- V. It also presents the reason for migration, i.e. loss of job, work-problem, food, etc.
- VI. This portal contains details of the migrants like home address, home district, home state and working address.

#### **Lesson Learnt**

This portal is an important statistical contrivance. Its significance can be gauged by the captured data about the stranded people stuck in various districts of Haryana. The vital information like Name, Aadhaar number, Mobile number, City/ Village/ District and State of origin can be used for further projections and planning for their welfare and potential employment. Besides, it is a locator-cum-ready reckoner for their kin and relatives, anywhere in the world seeking their whereabouts. In addition, each district of Haryana has its own login access by which information of camps as well as people can always be modified, deleted or added.

#### **Conclusion**

The portal has user-friendly search facilities- if anyone from Haryana or any other state wishes to search anybody, only the name is to be written and immediately all the details are displayed on the portal. The Labour Ministry, Government of India has picked up this portal for replication in the entire country. The portal has data of Foreign Nationals also.
